BWCONSTRUCTION
quality made in germany 

Jürgen Schäfer
Managing Director

Baden-Wuerttemberg, Germany

Baden-Wuerttemberg is one of the leading innovative regions in Europe. Its advantages are to be found in the quite especial mix of tradition, innovation, hi-tech as well as a regional and cultural diversity.

Companies as Mercedes, Porsche and Bosch are driving the economy.

Fascinating countryside such as the Black Forest, the Lake of Constance, the Swabian Alb, or the cities of Stuttgart, Freiburg, Heidelberg and Baden-Baden make Baden-Wuerttemberg a key destination in Germany.
